

## Weird Font Sizes

Tuesday, April 24, 2018 10:44 AM

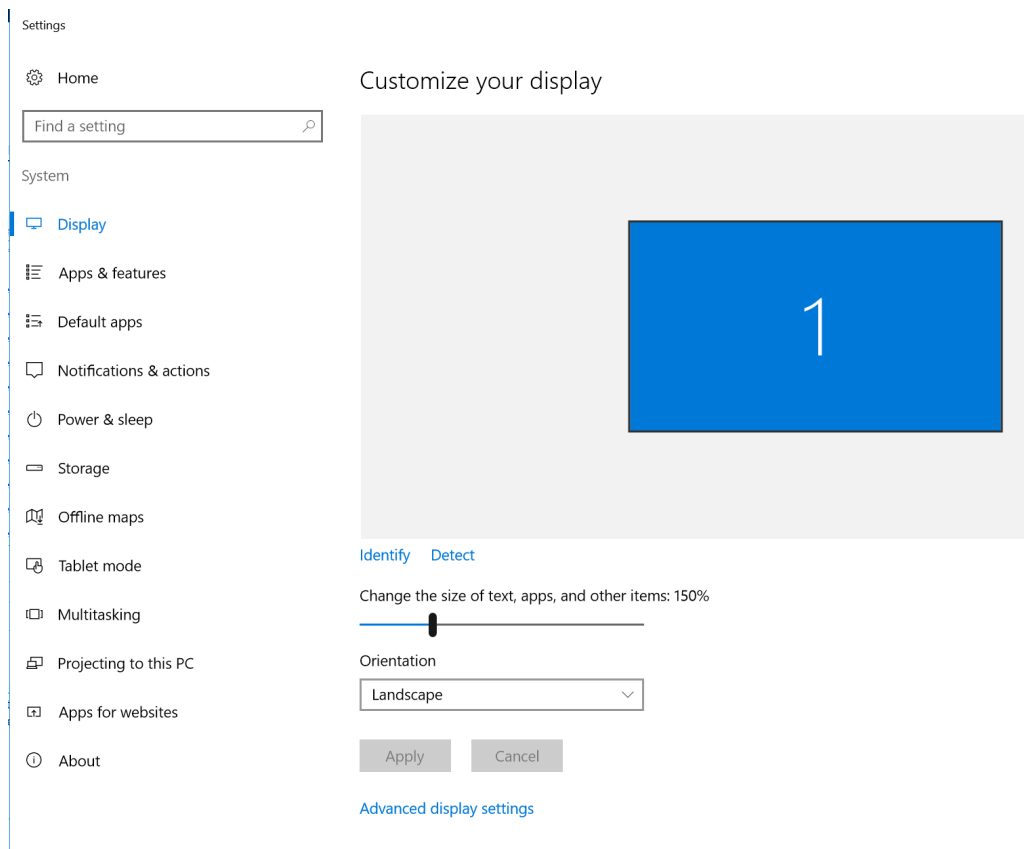

This is at 100% app scale:

Screen clipping taken: 4/24/2018 10:44 AM

Screen clipping taken: 4/24/2018 10:49 AM

Upping app scale to 150%:

This is what it looks like at 150%:

**Not a head revision!**

Commit

Setting "Message boxes" font size to 10 brings this back to normal at 150% app scale:

Control Panel\All Control Panel Items\Display

Control Panel > All Control Panel Items > Display

File Edit View Tools Help

Control Panel Home

Change display settings

Calibrate color

Adjust ClearType text

**Change size of items**

To change the size of text, apps, and other items, [use these display settings](#). If you want to temporarily enlarge a portion of your screen, use [Magnifier](#). If neither of these makes the changes you want, you can [set a custom scaling level](#) (not recommended). Setting custom levels can lead to unexpected behavior on some displays.

**Change only the text size**

Instead of changing the size of everything on the desktop, change only the text size for a specific item.

Message boxes 10 Bold
