WORK EXPERIENCE

Application Programmer
(*Team Lead*)
88th Floor Gifts, Inc.

September 2010 – Present

Mandaue City, Cebu

I am currently employed as an Application Programmer. I handle generating reports for the company using T-SQL. I also function as tech support, when needed. I monitor and maintain their ERP system (Made2Manage). I also maintain and develop the various applications used by the company.

- Generate reports using T-SQL
- Tech support
- Maintain and monitor the company's various systems (ERP, attendance, biometrics, payroll, etc.)
- Extend the company's ERP system for additional features using VBA
- Trace and troubleshoot errors in the complex ERP system
- Create stored procedures in Microsoft SQL Server using T-SQL
- Create excel macros using VBA
- Create and alter emailers (automatically sends periodic reports to managers across the U.S.)
- Trained a new employee
- Monitor and maintain software used by the company
- Delegate tasks to my teammate
- Optimize and document old code
- Improve T-SQL stored procedures to run more efficiently, reducing problems in the server
- Document applications and procedures for easier maintenance and troubleshooting
- Monitor progress of projects assigned
- VB.Net, VB6, T-SQL, MS SQL Server

Designer (OJT)
Blumango Institute of Technology

July 2009 – October 2009
Talamban, Cebu City

For my practicum in college, I worked as a designer. I was tasked with creating brochures and posters for the company, from concept to the final printed product. I had to think up of the best way to fully advertise the services of the company while having a well designed layout. I also helped design a few of their websites.

- Sketch ideas and conceptualize design
- Give suggestions and input to designs created by others in the company
- Finalize the sketches using Photoshop and/or Illustrator
- Edit and prepare photos to be used later on designs

Flash Developer
OMS Asia

Summer 2007
Mactan, Lapu-Lapu City

I worked as a Flash developer converting static mock-ups of websites into working Flash websites. I did pre-loaders, intro animations, transitions, etc. I also created Flash websites that worked with XML for the dynamic content. I sometimes took part on the designing stage for the websites.

- Convert static Photoshop files to be usable for a Flash website
- Develop Flash websites
- Create pre-loaders, photo galleries and animations
- Sketch and design for Flash websites
- Give suggestions and input to designs created by others in the company
- Improve old websites by converting them to Flash

EDUCATION *University of Cebu – Banilad* June 2006 – March 2010
 Bachelor of Science in Information Banilad, Cebu City
 Technology

I have been included in the Dean’s list. On my 4th year I got elected as P.R.O. for our department’s Student Body Organization. I participated in several quiz bees.

My thesis was a reservation & billing system for a condominium/hotel in Lapu-Lapu. My team designed and developed it from scratch using Visual Basic 6.

St. Louis School of Mandaue June 2002 – March 2006
 High School Mandaue City, Cebu

I received “blue cards” for three years. These were tokens of recognition for good academic records of the school.
