## Bitcoin for the masses

# Festival payment is hard

Visitors hate queues  
and lack of ATMs

Organizers fear  
foreign currencies,  
micro-managing cash stock,  
renting expensive POS terminals

# State of the art

Plastic tokens

Food / drink coupons

Paper credit / debit cards

Fast payment!

Purchase bitcoins in advance

Bitcoins retain value after event

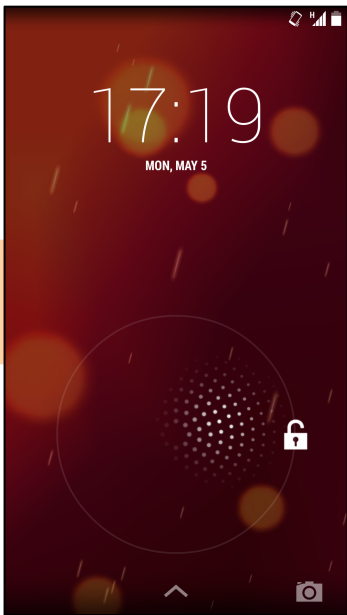

Less queuing for visitors, more time to consume

Off-the-shelf iOS or Android “POS terminal”

**Plus Bitcoin is cool :-)**

# What people say

“ How can it be improved? ”

“ It’s already so simple that  
“ everyone understands it! ”

# Thanks
