Journalism iOS Application

Our goal is to produce for Mr. Ochoa an app that he can use on iPad with his middle school journalism class. The app will allow students to finalize the design of a newspaper. This includes editing text, adding photos, and dynamically changing the design. Each student will also have a logon that will be integrated with their own Google Drive.

Client:

Mr. Wilbert Ochoa

Team Members:

Kyle Hart

Deep Bajwa

Gabriel McFann

Advisor:

Dr. Anvik
