MinGW Installation Manager Setup Tool

mingw-get version 0.6.2-beta-20131004-1

Written by Keith Marshall

Copyright © 2009-2013, MinGW.org Project

<http://mingw.org>

This is free software; see the product documentation or source code, for copying and redistribution conditions. There is NO WARRANTY; not even an implied WARRANTY OF MERCHANTABILITY, nor of FITNESS FOR ANY PARTICULAR PURPOSE.

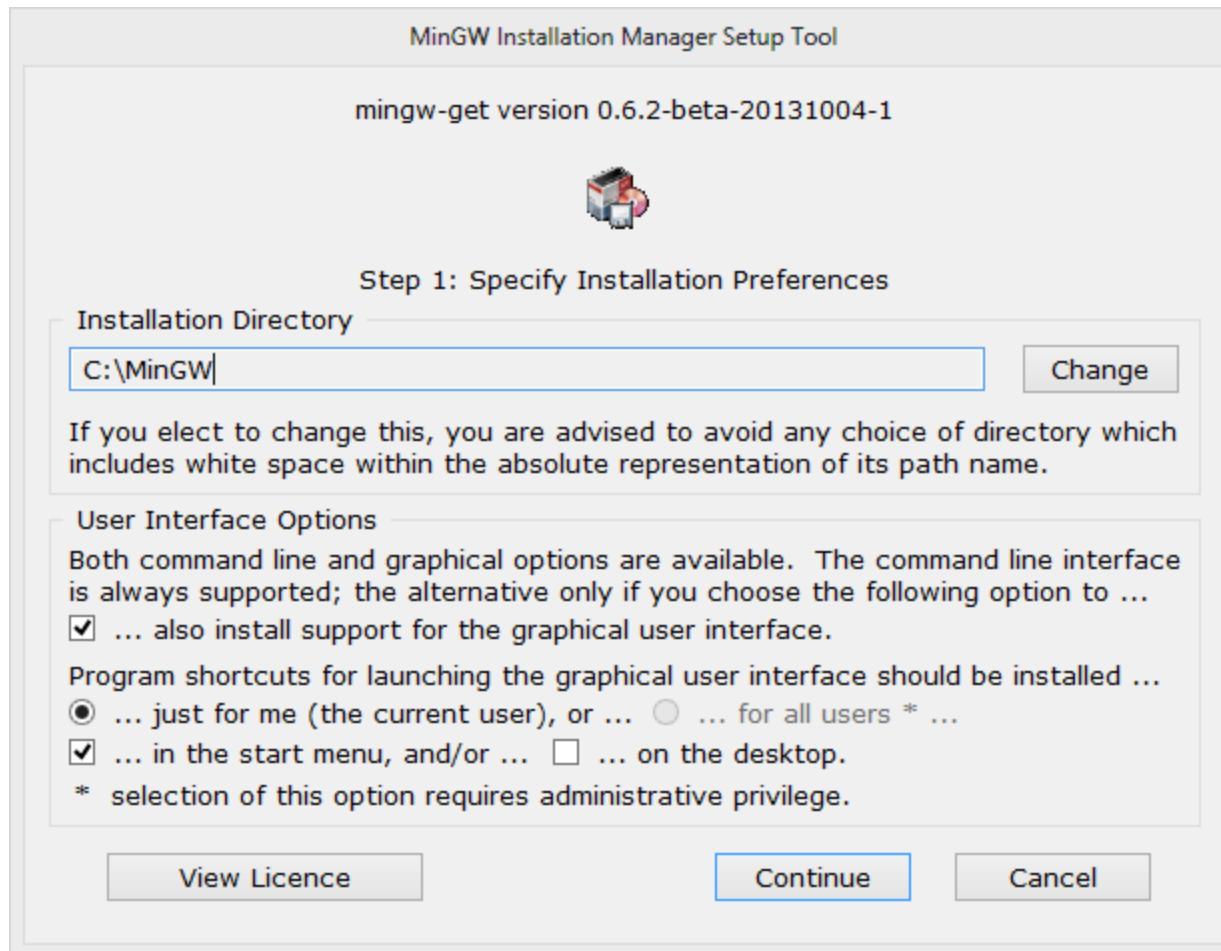

This tool will guide you through the first time setup of the MinGW Installation Manager software (mingw-get) on your computer; additionally, it will offer you the opportunity to install some other common components of the MinGW software distribution.

After first time setup has been completed, you should invoke the MinGW Installation Manager directly, (either the CLI mingw-get.exe variant, or its GUI counterpart, according to your preference), when you wish to add or to remove components, or to upgrade your MinGW software installation.

msys-base	bin		2013072300	A Basic MSYS Installation (meta)

General Description Dependencies Installed Files Versions

The GNU C++ Compiler

This package provides the MinGW implementation of the GNU C++ language compiler.

This is an optional component of the MinGW Compiler Suite; you require it only if you wish to compile programs written in the C++ language.

Mark these for install:

- mingw-developer-toolkit
- mingw32-base
- mingw32-gcc-g++
- msys-base

Then apply changes.

Go back into installer, add libz dev.

The screenshot shows the MinGW Installation Manager interface. On the left, there's a sidebar with navigation links like 'Basic Setup', 'All Packages', 'MinGW' (with sub-links for Base System, Libraries, Contributed, Autotools), and 'MSYS' (with sub-links for Base System, Developer Toolkit, System Builder). The main area is titled 'MinGW Installation Manager' and contains a table of packages. The table has columns for Package, Class, Installed Version, Repository Version, and Description. A row for 'mingw32-libz' is selected, highlighted with a blue background. The description for this package is: 'A Massively Spiffy Yet Delicately Unobtrusive Compression Library'. Below the table, there are tabs for General, Description, Dependencies, Installed Files, and Versions. Under the General tab, detailed information about the package is provided:

Package	Class	Installed Version	Repository Version	Description
mingw32-libtool	bin	2.4-1	2.4-1	A shared library generation tool
mingw32-libtool	doc		2.4-1	A shared library generation tool
mingw32-libtool	lic		2.4-1	A shared library generation tool
mingw32-libunistring	dev		0.9.3-1	libunistring: Library for manipulating Unicode strings
mingw32-libunistring	dll		0.9.3-1	libunistring: Library for manipulating Unicode strings
mingw32-libunistring	doc		0.9.3-1	libunistring: Library for manipulating Unicode strings
mingw32-libunistring	lic		0.9.3-1	libunistring: Library for manipulating Unicode strings
mingw32-libz	dev	1.2.8-1		A Massively Spiffy Yet Delicately Unobtrusive Compression Library
mingw32-libz	dll	1.2.8-1	1.2.8-1	A Massively Spiffy Yet Delicately Unobtrusive Compression Library
mingw32-lua	bin		5.2.0-1	Lua Embedded Scripting Language Interface
mingw32-lua	dev		5.2.0-1	Lua Embedded Scripting Language Interface
mingw32-lua	dll		5.2.0-1	Lua Embedded Scripting Language Interface

mingw32-minGW-set	bin	0.6.2-beta-20121	0.6.2-beta-20121	MinGW Package Download and Installation Tool

General **Description** **Dependencies** **Installed Files** **Versions**

A Massively Spiffy Yet Delicately Unobtrusive Compression Library

SubSystem: mingw32
Package Name: mingw32-libz
Component Class: dev
Installed Version: none
Repository Version: libz-1.2.8-1-mingw32-dev-1.tar
Package URL: <http://prdownloads.sourceforge.net/mingw/zlib-1.2.8-1-mingw32-dev.tar.lzma?download>
Licence URL: <http://prdownloads.sourceforge.net/mingw/zlib-1.2.8-1-mingw32-lic.tar?download>
Source URL: <http://prdownloads.sourceforge.net/mingw/zlib-1.2.8-1-mingw32-src.tar?download>

by default, libz 1.2.8-1 dll is installed, but not dev.

General Description Dependencies Installed Files Versions

A Massively Spiffy Yet Delicately Unobtrusive Compression Library

Package: libz-1.2.8-1-mingw32-dll-1.tar

This package provides the following files:

- bin/zlib1.dll

Create C:\MinGW\msys\1.0\etc\fstab that contains:

c:/mingw /mingw

Create shortcut

to C:\MinGW\msys\1.0\msys.bat

within C:\Users\<id>\AppData\Roaming\Microsoft\Windows\Start Menu\Programs\MinGW
called "MinGW Shell"

Create C:\MinGW\msys\1.0\home\<id>\.profile that contains:

```
alias ll='ls -latrh'
```

Install <http://tortoisehg.bitbucket.org/>

Look at <https://bitbucket.org/jonhedgerows/atomicparsley/downloads/mingwbuildtip.sh>

Check for existence:

Yes:

```
/mingw/include/zlib.h  
/bin/autogen.exe  
/mingw/bin/g++.exe
```

No:

```
/bin/wget.exe  
/bin/unzip.exe  
/bin/zip.exe  
/bin/autoconf  
/bin/automake
```

NOTE: decided to leave these alone and just give it a try

Inside MinGW /home/<id>

```
mkdir atomicparsleybuild  
cd atomicparsleybuild  
hg clone https://Foosatraz@bitbucket.org/Foosatraz/wez-atomicparsley-foosatraz-fork
```

```
cd wez-atomicparsley-foosatraz-fork  
.autogen.sh  
configure.ac:60: installing `./compile'  
configure.ac:15: installing `./config.guess'
```

```
configure.ac:15: installing `./config.sub'  
configure.ac:13: installing `./install-sh'  
configure.ac:13: installing `./missing'  
.configure --prefix=/mingw
```

NOTE: I hit a bunch of issues here, with errors that looked like:

```
checking for deflateEnd in -lz... rm: cannot lstat `conftest.exe': Permission denied  
rm: cannot lstat `conftest.exe': Permission denied  
no  
configure: error: zlib is required  
rm: cannot lstat `conftest.exe': Permission denied
```

Root cause was Windows trying to read conftest.exe while it was being created/overwritten.

Once I paused my AntiVirus and Backup software, everything worked again.

```
make LDFLAGS=-static  
strip AtomicParsley.exe
```

Now I have a working AtomicParsley.exe !!!
